# MENTAL HEALTH FIRST AID FOR MILITARY, VETERANS, AND THEIR FAMILIES

*So many people are out there wishing for something better, hoping that help will show up. That's what Mental Health First Aid is — it is help to get people connected to care and ultimately to get them to a better place."*

— Tousha Paxton-Barnes,  
U.S. Army Veteran

## WHY MENTAL HEALTH FIRST AID?

**Mental Health First Aid for Military, Veterans, and their Families** is an evidence-based and early intervention training program developed for adults to learn how to assist and support members of their community who may be experiencing a mental health or substance use challenge.

This training specifically addresses the relevance of mental health to military culture, information on risk factors such as mental and physical trauma faced by many service members and their families, how to break down stigma and how to reach out to those who suffer in silence and are reluctant to seek help.
